Documentation

1. How to install/update the script?
2. How to manage Auction products?
3. How to set quantity wise prices?

How to in Details

1. **How to install/update the script?**

   Answer: To install/update Auction addon you need to follow the below steps

   - **Active eCommerce cms** should be **pre-installed** on your server.
   - **Purchase** and **Download** the **Wholesale Addon file**.
   - **Login** in to your admin panel of **Active eCommerce cms** the system
   - Go to **Addon Manager**
   - Click on **Install New Addon**

   - Choose the **downloaded zipped file** and click on **Install**.
   - After Installation, you will find the **Auction Products Menu in your left sidebar** of the admin panel.
   - Now you can upload and manage Auction products.

2. How to manage Wholesale products?

Answer:

- Go to the admin panel navigation > **Wholesale products > Add New Product** to add a new wholesale product.
- Go to **Wholesale products > All whole products** to see all wholesale products. You can edit and delete products from here.

3. How to set quantity wise prices?

Answer:

- **Login** in to the admin panel.
- Go to the admin panel navigation > **Wholesale products > Add New Product/Edit.**
- Go to the Price section.
- Insert minimum quantity, maximum quantity and price according to a chart. If you overwrite quantities one with another the system may miscalculate. And set stock quantity as the maximum quantity for one row of pricing.
